## Education and examination regulations BMS (OER)

## Testing regulations master - 2019-2020
- ## year 1

Testing regulations previous year 2018-2019

## 1   Testing regulations master year 1 -  2019-2020

- BMS01    Thinking critically about science
- BMS02    Management skills for a consultant
- BMS03    Policy research
- BMS04    Policy making,health sys. & public managm.
- BMS05    Participatory approaches to innovation
- BMS06    Science popularisation
- BMS07    Science, communication and society
- BMS08    Qualitative research
- BMS09    Science presentation and visualisation
- BMS10    Laboratory animal science
- BMS11    BROK
- BMS12    Research with ionising radiation
- BMS13    Data-analysis and modeling in MATLAB
- BMS14    Design and analysis of experiments
- BMS15    Big data in biomedical research
- BMS16    Causal inference in observation. research
- BMS17    Genetic association studies
- BMS18    Systematic reviews and meta-analyses
- BMS19    Vision: From molecule to percept & treatm.
- BMS20    Hearing: function, dysfunction & treatm.
- BMS21    Neurodevelopmental disorders: bench to bedside
- BMS22    Vanishing boundaries between neurodevelopmental disorders
- BMS23    Biomedical imaging: seeing is understanding
- BMS24    Introduction to neuroimaging 1
- BMS25    Introduction to neuroimaging 2
- BMS26    Neuroscience of sleep
- BMS27    Higher order cognition and emotion
- BMS28    Stress-related disorders
- BMS29    Experimental models of stress and (mal)adaptation

- [BMS30    Animal mod. for psychiatric and neurological disorders](#)
- [BMS31    OMICS data analysis for systems biology](#)
- [BMS32    Molecular and cellular neuroscience](#)
- [BMS33    Neural stem cells to model neurological disorders](#)
- [BMS34    Reconstructive and regenerative medicine](#)
- [BMS37    Cell death in life and disease](#)
- [BMS38    Biomarkers: let's get personal](#)
- [BMS39    Understanding proteins in 3D](#)
- [BMS40    Nanomedicine](#)
- [BMS41    Advanced models of human disease](#)
- [BMS42    Targeting cellular processes to treat disease](#)
- [BMS43    From target to therapy](#)
- [BMS44    Mitochondrial disease drug development](#)
- [BMS45    Kidney in health and disease](#)
- [BMS46    Healthy versus neurodegener. brain aging](#)
- [BMS47    Biomarkers in population-based research](#)
- [BMS48    Clinical trials](#)
- [BMS49    Movement science in rehabilitation](#)
- [BMS50    Neural control of movement](#)
- [BMS51    Sensorimotor control](#)
- [BMS52    Disorders of movement](#)
- [BMS53    Orthopaedic biomechanics in motion](#)
- [BMS54    Applied exercise physiology](#)
- [BMS55    From vascular function to vascular fail.](#)
- [BMS56    Health outcome measurement](#)
- [BMS57    Health care improvement science](#)
- [BMS58    Cost-effectiveness analysis in health care](#)
- [BMS59    Prediction models in health science](#)
